

**Remarks**

Reconsideration of the application is requested in view of the amendment above and comments which follow, as well as the Terminal Disclaimer that is submitted herewith.

First of all, regarding the objection to the duplication of claims 37 and 38, the error in the previously Response is regretted. Claim 38 was typed incorrectly and has been corrected above. That, it is submitted, does not affect the allowability of the application since the claim, as original cast, is now set forth above, appropriately amended. No new issues have been raised.

Regarding the non-statutory double patenting rejection, an appropriate Terminal Disclaimer is submitted herewith.

In view of the foregoing, it is believed that this application is now in condition for allowance, and the Examiner's further and favorable reconsideration in that regard is urged.

Respectfully submitted,
